Career Objective

My objective is to achieve a responsible position in a reputed company & explore myself more efficiently in an industry. My goal also includes learning new technologies which will be introduced in upcoming years and contribute my best skills to the company. I am an **AI/ML enthusiast** passionate about creating intelligent, user-centric solutions and driving product excellence through data-driven insights. I aim to contribute my technical and analytical skills in a reputed organization to develop innovative, efficient, and impactful AI-powered products.

Education

Name of the Institution	Degree	Board	Year of passing	Percentage of Marks
Brainware University	B.Tech	Brainware University	2026	87.65 (till 7th sem)
Higher secondary	12th	WB	2022	85%
Secondary	10th	WB	2020	91%

Technical Skills/Additional Certification.

- Programming Languages – C, Java, Python, SQL
- Web skills- HTML, CSS, JavaScript, React js, Node js, Mongodb, SpringBoot, Jquery
- ML frameworks- Tensor flow, PyTorch, Scikit-learn, NLTK, openCV
- Additional skills- networking (CISCO), cloud computing (AWS)

Academic Projects

Vision Language Model :-

As part of "**Intel Unnati**" industrial training Project (6th Semester),we develop a visual search engine that leverages vision-language models (VLMs) to retrieve relevant images based on textual queries or sample images. The system should embed both text and images into a shared representation space, allowing users to search via keywords, natural language descriptions. I was responsible for machine learning part and also database part. **(date- Jan24-Feb'25)**

ML-based Predictive Maintenance Dashboard:-

As part of an applied machine learning project, we built an ML-based Predictive Maintenance Dashboard that analyzes sensor and time-series data to predict equipment failures and detect anomalies before breakdowns occur. The model processes real-time data streams such as temperature, vibration, current, and load patterns, and uses forecasting algorithms to identify abnormal behavior. This enables early detection of faults, reducing downtime and optimizing maintenance schedules**.** **(date- 04.08.2024)**

Employee Payroll System:-

A Java-based application associated with SpringBoot that automates employee salary calculation, tax deductions, and payroll processing, with employee data stored using SQL. It generates accurate payroll reports and simplifies salary management for organizations. **(date- 15.09.2025)**

Trainings & Workshops

- Attended a 2 days workshop on HTML **(12.12.2024)** .
- Attend IBM workshop held in our college **(01-02nd april,2025).**
- Completed a **3-month Machine Learning Industrial Training** from '**INTEL**' gaining hands-on experience in model development, data preprocessing, and performance evaluation. **(28th feb- 15th apr)**.
- Joined **Code Alpha as a Data Analyst Intern** working on data cleaning, exploratory data analysis, and visualization to derive actionable insights**. (10th Aug – 10th Sept, 1 month)**

Extra-curricular Activities

- Completed a certification course in Python Programming using Data Structures and Algorithms (DSA) from NPTEL, demonstrating expertise in programming fundamentals and data structures.
- Participated in Smart India Hackathon and secure 12th rank.
- **Completed multiple Machine Learning and AI-based courses** from *Infosys* and earned certifications, covering topics such as supervised & unsupervised learning, deep learning, and AI applications.
- **Certified AWS Solutions Architect – Associate** by successfully passing the AWS certification exam, demonstrating expertise in designing and deploying scalable, reliable, and cost-efficient cloud solutions.
- **Earned IBM Certification** in '**Getting Started with AI'**, demonstrating foundational knowledge in artificial intelligence concepts and achieving professional excellence in the program

Languages Known

Language	Read	Write	Speak
English	yes	yes	yes
Hindi	yes	No	yes
Bengali	Yes	Yes	yes

Hobbies

Watching football (both national and international)

Personal Details

Date of Birth: 10.10.2004

Permanent Address: 8no. Deshbandhu colony Khardah, KOL- 700117

Fathers Name: Raju Das

Nationality: Indian
